

# COMP229

## Project Part 1 – Team Contract

### Part 1 – Team Contract

**Due: Week 8**

#### **Requirements**

You will create a group of between 4 to 6 members based on the type of Web App you will be developing. You will assign group members to a prime role.

Each group member will sign the contract and be accountable to deliver their portion of the App. All team members must be able to communicate decisions, techniques, and processes related to all aspects of the development process for their App. The Team Contract will outline expectations for all team members to adhere to, as well as the consequences for failing to meet each expectation.

If a team member fails to meet Team Requirements, some of the repercussions may include having a team member 'flagged' as unproductive. Any member who is flagged will receive a grade of 0 (zero) on all following review sessions until the flag is removed.

If conflicts arise, team members may choose to leave a group and join another group at the discretion of the professor. A new version of the contract will have to be drafted for both teams being affected by this change.

During team formation you can choose a **Team Name** and develop a **Team Logo** that will be used with all documents, presentations and communications.

#### **Submission:**

- Signed Team Contract Document (PDF File)
- Team Logo (PDF File)
